TOOLKIT: How to build and fund a turnkey SEL program that will increase student engagement.

The collective trauma of the pandemic has caused the critically high levels of mental health obstacles to soar by 25%, negatively impacting students' ability to focus and learn.

Districts know that every \$1 invested in SEL will increase student academic outcomes by 10x. School administrators are eager to implement effective and turnkey SEL programs that can re-engage and motivate struggling students.

This toolkit is designed to help districts implement and fund a turnkey SEL program that can deliver transformational student support and outcomes - without burdening existing staff or creating a need for additional hires.

AN APPROACH THAT WORKS

Student Transformation Without the Need for Additional Hires

EmpowerU has reimagined the out-dated delivery of social-emotional supports to schools, increasing student access to mental health supports while improving outcomes, such as persistence, grades and attendance.

Our tech-powered program helps students master core social-emotional concepts by combining skill building lessons with 1:1 online coaching by master-level therapists - all delivered in daily doses through the EmpowerU portal.

EmpowerU's turnkey SEL program can be implemented quickly - without a heavy lift from existing staff or the need for additional hires.

How It Works

1

EmpowerU works within your district's MTSS framework to identify students at Tier 1 and Tier 2 that are in need of additional SEL and mental health support.

2

Engaging lessons are delivered to students in daily digestible doses through the EmpowerU portal. Each lesson builds upon the next to ensure mastery of core concepts.

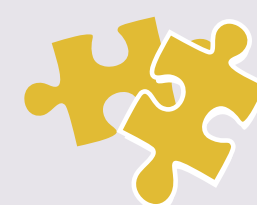

4

EmpowerU coaches engage students as active participants in their wellness journey, helping them increase motivation, persistence and success, before the need for more costly interventions.

3

Once the student completes their daily SEL lesson, their 1:1 EmpowerU coach signs onto the portal to deliver daily support and encouragement, personalized to each individual student's unique goals and challenges.

Core Concepts

1 Self-Identity
Student learns about self in order to best make personal changes and improve quality of life

2 Motivation & Habits
Student creates personal change by mastering strategies for habit change and motivation

3 Inner Coach
Student improves distress tolerance by using realistic self-talk (Inner Coach over Inner Critic)

4 Emotional Regulation
Student learns and successfully implements strategies for emotional regulation

5 Community
Student is able to identify community of support and make more meaningful connections

Proven Results that last.

EmpowerU coaches help students set and meet goals in four areas of their lives: Personal, Emotional Social and Academic.

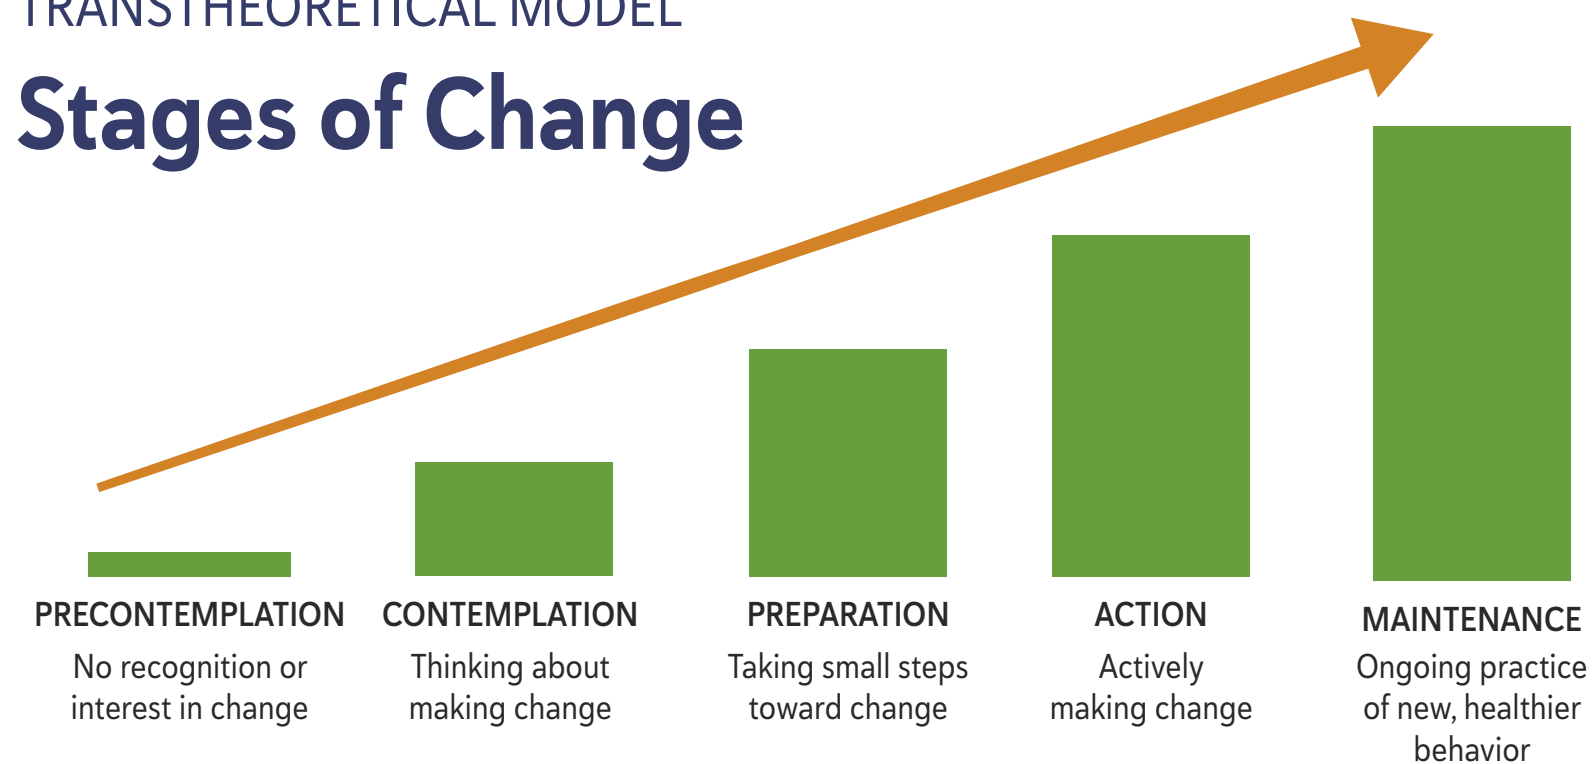

- INCREASED**
- RESILIENCE
 - GRADES
 - CONFIDENCE
 - PERSISTENCE
 - ATTENDANCE
 - SELF-AWARENESS

“ I used to think that I had no control over my emotions, but EmpowerU has helped me realize I actually do! I am now more focused and calm which has helped me in many areas of my life. ”

- FEMALE STUDENT
11 GRADE
MINNEAPOLIS

EmpowerU coaches are highly trained, empathetic therapists who help students face their obstacles and make connections between daily lessons and the unique challenges in their lives, fueling growth. Student goal progress is measured using an assessment tool based on the widely used and accepted work of Prochaska and DiClemente.

TRANSTHEORETICAL MODEL Stages of Change

Our 3-year data study measured the increase in student growth from pre-to-post intervention at 1.8 stages of change in each of their four goal areas, which means that students went from just thinking about making goal change to actively working on their goals each day.

In addition, more than 93% of students who complete EmpowerU’s online program make a dramatic shift from discouragement and anxiety to improved wellbeing, motivation and hope and 98.5% would recommend to a friend.

EmpowerU qualifies as a SEL/Mental Health program that can be fully -funded under each of these funding options:
